## EMPIRE.

*Special to the News.*

I saw recently in the News where some of the writers were discussing unionism. I will try to show how much unionism there is at Empire.

Several years ago the mines at this place came out and struck for a two and a half cent raise on the ton. They were out two days before any action was taken by the Empire Coal Company. Of course Empire is not a union camp, but it has some good union men living in it. On the second day of the strike Frank Nelson, the president of the Empire Coal Company came out from Birmingham and began to investigate the matter. In the mean time the miners had several meetings, and it was rumored that they were going to organize it. On the third day of the strike Mr. Nelson told the miners that all who wanted to stay on and work for the old price could go back to work next day. He promised them that every month that they put out 12,500 tons of coal that he would give them the 2½c raise, when he knew that they could hardly get that much out two months in the year. Next morning the mines started up. About 20 men went in to work for the old price. If they had stuck together with the rest three days longer they would have been getting 37½c. for the machine coal and 62½c. for the soft coal instead of 35c and 60c. Now, was that unionism? Did those men who came out and struck for higher pay and then go back to work on a pretty promise stick to their friends? No, they did not. So they are not fit to be called white men. If the world was full of such men a strike would never do any good. Men ought to stick to one another like brothers.

Mrs. N. R. Chamblee entertained a few of her friends Monday night. Among the guests were the Misses Irene, Flora and Pearl Thomas and Pauline McFarland, Messrs. H. Glasgow, Ora Argo, Jim Morris, Jno. Boggs, John Thomas, Cowan McFarland, Mr. Jordan and Mr. Lee. Cake and cream were served. Several solos were sung by the boys and girls.
